

MORGAN TOPPLES SANDY HOOK TO WIN 60TH TITLE

Devils Meet Phelps
Friday In Regional
At Paintsville Gym

Coach Glenn Stanley's Morgan County Blue Devils rated a third choice in the 60th district, retained their title as 60th district champs here Saturday night, nosing out a fighting quint of Sandy Hook Lions by a slim 69-66 margin in the finals of the meet.

Rated behind both Sandy Hook and Oil Springs in the pre-tournament sizeup, the Devils fought their way to the championship by sweeping past Oil Springs 64-58, Salsersville 80-51 and Sandy Hook 69-66 in that order. Sandy Hook gained the finals and a regional birth by outscoring Ezel 66-54.

After eliminating Oil Springs by 64-58, in the tournament opener, the Devils came back to trounce Coach Leonard Marshall's Salsersville Hornets by 80-51 in the semi-finals Friday night.

The Devils lost no time in gaining complete control of the Magoffin crew as they rocketed away to a 24-9 first quarter lead. From there on the Hornets were all but out of the running. The Morgan kids, using a lightning fast break to maximum effectiveness, kept the hapless Hornets on the ropes all night to win going away by an 80-51 count.

Hamilton, Franklin and McKenzie came in one, two, three in Morgan scoring with 18, 17, and 16 points respectively. Spurlock headed the Salsersville attack, bucketing 21 markers.

The Devils continued a march to the crown the following night against Tom Adkins' Sandy Hook Lions as they scored a comeback 69-66 victory over the touring favorites in the final meet. Behind 17-13 at the first quarter's end, the Blue Devils fought back gamely to take a 32-31 halftime edge. During the final half the contest saw-sawed back and forth constantly with the Devils again taking the command at the three-way mark registering a 51-49 advantage. Morgan then proceeded to outscore the Elliott five by a single point, 18-17, during the concluding stanza to clinch the championship for the second consecutive year.

McKenzie, Stacy and Franklin paced the winners registering 18, 18 and 17 points respectively. Big Bill Evans garnered 28 to lead the Sandy Hook attack. Both teams were plagued by fouls as each quint lost three men via the five-foot rule.

Sandy Hook and Morgan County dominated the 60th district all-tourney team each placing three men. Oil Springs was next, netting 2 spots, followed by Ezel and Salsersville with 1 each.

Al-Tourney team was named as follows:
Moore—Sandy Hook
Spurlock—Salsersville
McKenzie—Morgan County
Leach—Ezel
Franklin—Morgan County
Evans—Sandy Hook
Hamilton—Oil Springs
Conley—Oil Springs
Davis—Sandy Hook

TOBACCO GROWERS FROM 10 COUNTIES TO BE HERE

Tobacco growers from nine or ten mountain counties will be in West Liberty next Tuesday to attend one of seven Kentucky meetings to discuss the overproduction of burley. Tobacco experts from Lexington and Washington will be here to speak to growers. Only three such meetings are being held in Eastern Kentucky—one at West Liberty, one at Somerset and one at Maysville. Morgan county is the biggest producer of burley east of Mt. Sterling, and all surrounding counties are burley producers, which probably accounts for West Liberty being picked for one of the meetings.

LICKING FLOODED AGAIN

Licking River and tributaries in this area had receded only part way back to normal when drenching rains Sunday and Sunday night again brought the river to flood stage. The Licking at West Liberty lacked only 18 inches of reaching the same stage Monday as last week. Salsersville was flooded for the second time. Commonwealth Attorney W. Major Gardner is attending Carter circuit court in Grayson. Sgt. James W. Helton, just over from Germany via plane, phoned to talk with his parents in West Liberty. Minimum Foundation Program For Schools Explained To Club Here

Supt. Stewart Is
Speaker At Club
Meeting Tuesday

Carl Stewart, superintendent of Morgan county schools, extolled the virtues of the Minimum Foundation Program for education in an address delivered to members of the Morgan County Woman's Club Tuesday evening.

The club meeting was held at the home of Mrs. Clyde Adams on Riverside Drive, with the following assisting with the entertaining: Mrs. Elmer Anderson, Mrs. Harold Hammond, Mrs. Henry L. Stacy, Mrs. Drexel Vest, Mrs. Gene Haney, and Mrs. Jerald Amyx.

Mrs. H. D. Potter opened the program with a scripture reading from the sixth chapter of Mark, followed by a reading and prayer by Mrs. J. R. Nevius.

In an impressive and informative talk, Supt. Stewart told the clubwomen that had the Minimum Foundation Program been in complete effect this year, Morgan county schools would have received at least \$132,000 more than what was received.

Citing many advantages that other states are now enjoying due to a Minimum Foundation Program, he gave Georgia as an example of what could be accomplished. A few years ago, he said, Georgia ranked close to Kentucky in education; then three years ago the state adopted a minimum

foundation and today when one drives through Georgia he can see school buildings being constructed to replace dilapidated, obsolete buildings. A foundation program for Kentucky, he went on, would have meant \$14,000 more this year to finance pupil transportation in Morgan county and about \$600 more per room for building purposes.

"Many candidates are speaking in favor of the Minimum Foundation Program now," said Supt. Stewart, "but voters should check the records of some of these politicians to see how they actually stood back when amendment 186 was put before the people."

Educational advantages Morgan schools would enjoy if the complete foundation program is put into effect by the next governor, said Supt. Stewart, include money to provide adequate bus transportation for pupils, money for new buildings and to repair buildings, funds to buy much-needed equipment for training students and to obtain the basic essentials that any good education program requires. In addition to all this, he told his audience, Morgan county would have funds to finance extra school supervisors, increase teachers' salaries, provide schools with art teachers, band director, teacher for retarded children, as well as a kindergarten. "One of the important phases of the program would be that each teacher would be allotted 27 pupils and no more than that," he added.

Bluegrass Farm Bureau Asks USDA To Cut Out .7 Acre Exemption

Action Would Hit
Little Growers In
Mountain Counties

Lexington, Ky., March 2 — Elimination from the burley control program of the acreage cut exemptions held by growers of an acre or less, was recommended yesterday by the Fayette County Farm Bureau.

The proposal was in a letter forwarded to Secretary of Agriculture Ezra Taft Benson. The letter is the most recent in a series of communications to government farm authorities concerning the critical burley situation. Benson was told the tobacco

program can never succeed "in our opinion unless the present exemption from cuts accorded small growers be entirely eliminated."

The letter signed by Robert D. Woods, president, said "the quota system must apply to all growers alike; we must think this consideration takes prior importance over any other questions relating to the present program and we do not want to recommend any improvements in the present program unless this provision can be adopted."

If the minimum acreage status is eliminated, the letter continued, six improvements in the program could be incorporated. They are:

West Liberty has been selected as one of seven towns in Kentucky where farmers' meetings will be held next week to discuss the serious problem of overproduction of burley tobacco, the Commodity Stabilization Service announced Tuesday.

Clarence E. Miller of Shelbyville, head of the tobacco division of CSS, said the seven meetings will give every burley grower in the state a "direct, first-hand appraisal and analysis of the existing situation."

The meeting in West Liberty is scheduled for Tuesday, March 15 at 10 a.m. Central Standard Time in the courthouse.

The West Liberty meeting will be the only one in Northeastern Kentucky, and it is expected that burley growers from all counties east of Mt. Sterling will attend the West Liberty meeting.

Other meetings will be—Monday at Lexington, Wednesday at Somerset, Thursday at Glasgow, Friday at Elizabethtown and Hopkinsville, and Monday, March 21, at Maysville.

Miller and other tobacco experts will address the meetings. Scheduled to accompany Miller to the West Liberty meeting are James R. Rash, Jr., chairman of the State ASC Committee; Roger Karkick, head of the Marketing Quota Section of the State ASC Committee, and possibly other representatives from Washington.

BURLEY MEETING CALLED FOR 19TH

A general discussion of the serious problem facing burley growers as a result of overproduction will be conducted and the farmers will be invited to make recommendations for saving the price support and marketing program, he said.

GLENN E. McAlister, Pastor

WASHINGTON, D. C., March 8—Senator Earle C. Clements (D-Ky.) and Representative John C. Watts of Nicholasville, Ky., today introduced bills in Congress intended to cure what they called weaknesses in the burley tobacco marketing-quota program.

The bills would amend the Agricultural Adjustment Act of 1938 in the following respects:

1. The penalty per pound on tobacco marketed in excess of acreage allotments would be increased from 50 to 75 percent of the previous year's average price.

2. "Red card" or excess tobacco marketed in excess of farm acreage allotments for any farm would not be taken into account in the establishment of farm acreage allotments for the following year.

3. To provide for reduction of a farm acreage allotment in the following year on any farm where the producer knowingly files, or aids or acquiesces in the filing of any false report with respect to the acreage of tobacco grown on the farm.

Amendments Strongly Backed
In introducing the legislation, Clements and Watts said that "although hearings are presently being conducted by the subcommittees of the Committee on Agriculture & Forestry of both houses on ways and means to improve the tobacco program, these three proposed measures already have overwhelming support of the growers, tobacco association and farm organizations, and have been endorsed by the Department of Agriculture."

"In view of this, we are moving ahead to obtain their early consideration and approval by the Congress in order that they may be made effective on the 1955 crop of tobacco which soon will be planted throughout the burley area."

Industry leaders, acutely aware of the disastrous situation facing the tobacco quota program, have asserted repeatedly that delay would be harmful and that steps must be taken to bring the 1955 crop under strict controls.

The Kentucky congressmen pointed out that in 1954 producers of burley tobacco sold in excess of 670 million pounds of tobacco on an announced quota of 526 million pounds. Much of the 145 million pounds marketed over the announced quota was "red card" tobacco.

Produced For Two Purposes
The solons said the excess poundage "was produced for two purposes:

"1. To obtain much profit as can be made from the sale of excess tobacco under the 50 percent (penalty) rate.

"2. To increase base acreage allotments, permissible under the present law."

The solons said they believed their amendments would eliminate the incentive to produce excess tobacco "inasmuch as it would appear impossible to produce tobacco profitably under a 75 percent penalty rate" and because producers would hesitate "to produce it at a loss since the growing of excess or 'red card' tobacco would not entitle the grower to any additional base."

The congressmen's third proposal was directed at "unreported" tobacco, a situation they said that "has increased steadily over the years."

Meeting Set Thursday
They said they believed their third amendment "would discourage such production in the future and thus the threat of having individual farm allotments reduced as a penalty."

Watts and Clements said that the House and Senate subcommittees would meet jointly on Thursday to hear testimony from growers' associations, farm organizations, warehousemen, dealers and members of the special eight-state committee studying over-production.

Continued high production despite acreage reductions have disturbed program leadership. Last year's record net yield came on acreage reduced 10 percent from 1953. A 10 percent reduction is in effect for 1955, but Secretary of Agriculture Ezra Taft Benson has been asked to seek authority to re-determine and reset 1955 marketing quotas.

The Watts-Clements amendments, if enacted, would punish "to produce it at a loss since the growing of excess or 'red card' tobacco would not entitle the grower to any additional base."

SCHOOL NEWS

Bernard E. Whitt visited the Junior class in high school taught by Mrs. Irene Murphy recently and found the room crowded to capacity. There were good discipline and very interesting students.

The room taught by Arthur Johnson had for closing period singing and Scripture reading. This was a nice group of young people from all sections of the county.

While attending the meeting of the faculty and listening to their discussion, it was very evident that there are a good many problems for the teachers. However, all the discussion centered around problems to improve the school and the students. It would be a fine thing for parents to know some of these and to give their aid to the teachers, all of whom

A visit to Mrs. Lloyd Patterson's room in the basement was very interesting. The pupils in the room were having a lesson in fifth grade history. Teacher and pupils were calm and quiet, working hard and doing nicely.

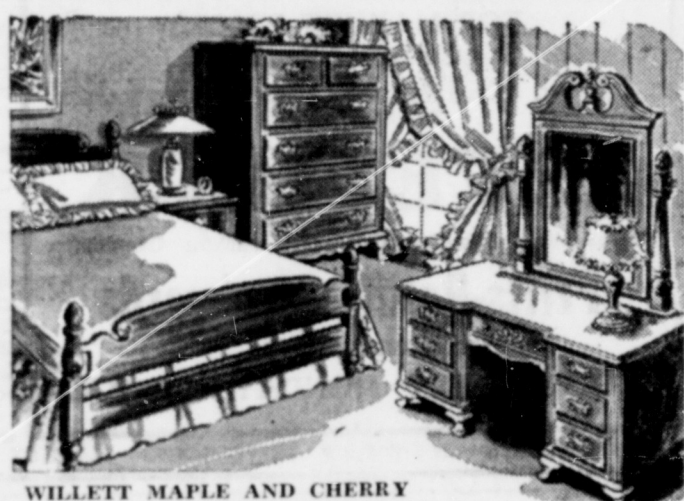

Phyllis Lee Mullikin, 8 years old and a third grade student and her sister, Patricia, 11, and in the fifth grade, live at Grassy Creek with their grandmother, Mrs. Gevedon who works in the bus station. They said they have attended the school at West Liberty since the first grade and they have a good school and good teachers. They also attend the Bible Camp school at Frenchburg each year and plan to attend this year and would not miss for anything. They attend Sunday school at Grassy Lick. Their father, John Mullikin, is in Seattle, Washington and their mother is working in Dayton.

The attendance at the Wrigley school is very good. There were two families at Redwine not sending and one at Zag, when

Bernard E. Whitt visited the school Monday. Lanta Whitt is teaching the first grade and the children were anxious to read and write and give in an example of the writing. Mrs. Lena Ratliff and Mrs. Jennie Hemphill had excellent attendance. Mrs. Hemphill had 44 in her room. Floyd Riggsby and family have moved to Indiana. Betty Nealis has gone to Ohio with her grandmother.

There's even more to Chevrolet styling than meets the eye!

This is beauty with a bonus . . . for Chevrolet styling is designed to add safety and comfort while you drive, and to return greater value when you trade.

Truly modern lines are shaped by usefulness. You can see what we mean in the deep crystal curve of Chevrolet's Sweep-Sight windshield . . . a dramatic style note, certainly, but one that stems from the need for wider, safer vision. Or take high-set taillights—they add to the impressive length of line . . . but they are up where they can be seen for safety's sake.

The smart louvers across the hood aren't just decoration . . . they mark the intake for the High-Level ventilation system for cleaner, fresher air. And the whole shape of the body—its lowness, the dipped belt line—is merely a reflection of a lowered center of gravity, the added stability.

This is truly functional styling that serves you better every mile, and preserves its value against the distant day when you trade. This is Body by Fisher—another Chevrolet exclusive in the low-price field. Come in and let us demonstrate that this new Chevrolet is just as exciting to drive as to look at!

EAST KY. FARM LOAN HOLDS ITS ANNUAL MEET

Annual stockholders meeting of
the Eastern Kentucky National
Farm Loan Association was held
in Salyersville Saturday. More
than 75 stockholders and guests
attended the meeting.

This association has the honor
of being the only one in the
United States that has never had
a foreclosure on a loan. It was
founded more than thirty years
ago.

Two of the original stockholders
were present at the meeting: Edw.
D. Holbrook who has been secre-
tary-treasurer for almost thirty
years, and Henry Lyons, of Sal-
yersville.

Cleveland Mann of Menifee
county and a brother-in-law of
the late Charles D. Arnett who
was State Senator and Secretary
of State of Kentucky, was one of
the original founders of the asso-
ciation.

The meeting was called to or-
der by Bernard E. Whitt, chair-
man, who spoke of the fine help
the organization had been to
farmers in securing long-term
loans at a low rate of interest.
The devotion was conducted by
Rev. Warren Bailey, pastor of the
Baptist church at Salyersville,
and music was provided by L. W.
Blankenship and his staff.

Edw. D. Holbrook made a re-
port and read the minutes of the
1954 meeting. E. A. Cecil of
Morgan county made a report of
the loan committee. John A.
Lewis, president of Rowan coun-
ty, gave the report of the confer-
ence in Louisville.

John Lewis and L. W. Blank-
ship were re-elected as members
of the board of directors. Other
directors are Elzie Conley, Sal-
yersville; L. C. Prichard, Sandy
Hook, and E. A. Cecil, Meade.

All members and visitors en-
joyed a delicious banquet at the
Porter restaurant.

Appearing on the program af-
ter the banquet were Hatler
Johnson of Paintsville, French
Holbrook of Jackson, Roy W.
Marshall, superintendent of schools
of Magoffin county; Herbert T.
Holbrook, teacher of vocational
agriculture in Wolfe county, and
Henry Collinsworth of Ashland.

Supt. Marshall spoke of the
great need for the Minimum
Foundation Program for Educa-
tion in Kentucky and appealed

WIND MOVES BARN MONDAY NIGHT

NICKELL, Ky., March 7—(By
Mrs. Grace Haney)—We truly
thank God for His goodness and
sparing our lives to the present
time. We have had sickness, then
came rain, hail and wind storms,
but He spared us through them
all. He promises us in the Holy
Writ that He'll never leave us or
forsake us. The wind storm on
Monday night moved C. M. Pey-
ton's tobacco barn a few inches
and blew windows out of the
tenant house of W. H. Haney.

Mr. and Mrs. W. F. Gevedon
were in West Liberty Friday for
medical aid.

Sorry to hear of the death of
our relative, John F. Adams, also

ternoon.

sister, Mrs. Gerald Gevedon and
brother, Joe Haney, and attended
the basketball tournament at West
Liberty last week.

OUR RACE WITH TIME

Life is ever as you make it.
Time must be just as you take it.
Let's build upon this thought
each day.

That soon with time we fly away
To a land I know not where.
Yet Christians have no room to
fear.

It surely pays to watch the trend.
While moving through the world
of sin.

Much depends on how we do.
Of what becomes of I or you.
To fall asleep in worthy arms.
This wicked world will lose its
charms.

Let's trust the Savior as our
friend
With a living faith that has no
end.

There's much to gain on the other
shore.
Where we're redeemed for ever
more.
Then we're not made for time
alone.

For time is ours when we are
gone.
If we're prepared, we'll surely
win
Our race with time forever.
Amen.

MORGAN SHEEP FARMERS ARE PLEASED WITH THEIR FLOCKS AND SPRING LAMBS

The old Scotch herdsman's saying, "The eye of the master fattens the flock," certainly applies to Morgan County sheep farmers. Farmers like Mrs. Grace Cecil and Wallace Blankenship have had sheep for a number of years and they are doing their usual good job of saving lambs.

The new sheep producers in Morgan County are doing an excellent job of producing lambs. Jasper Jones of Insko has saved 32 lambs from 24 ewes. This includes 13 sets of twins and two sets of triplets. Mr. Jones has saved an average of 1.4 lambs per ewe.

Cummins Fugate of Lower Grassy has saved 25 lambs from 15 ewes and he has only lost one lamb, which was born dead. He has eight ewes which have not lambed yet. Mr. Fugate has saved an average of "over 1.6 lambs per ewe so far.

Hager Ray of Salem has saved 10 lambs from nine ewes. He has six ewes that have not lambed yet. His ewes have had two sets of twins, and he has saved all

the lambs born except three which were born dead. These three sheep farmers of Morgan County were recently interviewed by County Agent, Carl W. Sinclair, and the interview was recorded by Bernard E. Whitt and broadcast over the Vanceleva station.

The sheep farmers have their sheep and lambs out on small grain cover crop pasture. This is an excellent practice in sheep production; it is usually figured that the income from the wool will about pay the feed expense for a ewe and her lamb. The outlook for the price of wool and lambs is bright. The market at Mt. Sterling and Flemingsburg is excellent for spring lambs.

It is quite possible for a farm flock of 30 to 35 ewes to bring in as much income as one acre of tobacco. The income from sheep comes from the wool sold in May and the lambs sold in May, June, and July. These are usually the months when there is no income from crops. This works in well with tobacco, bringing in a supplementary income and causes no competition in labor.

J. W. HALSEY DIES

John Wesley Halsey, 81, native of Wolfe county, died Feb. 17 at his home in Middletown, Ohio where he had lived since 1910. He operated a grocery store in Middletown until 1951 when he retired. He is survived by a son, John E. and a sister, Janie of Ironton.

Even the smartest individual has much to learn and the smarter they get, the more they realize this fact.

were separate rooms. To set off the front entrance, the stoop and flower boxes were added.

If you do not need three bedrooms at present, the one next to the kitchen could be paneled and made into an ideal den or office. Then, if needed later, it could be converted back into a bedroom.

The kitchen, pantry, and workroom unit offers an abundance of space for meal preparation, eating, food storage, and laundry. If you use a wood or coal stove, there is a suggested location for the chimney. In the workroom is a lavatory, and a closet for storing raincoats, boots, and such. In addition to the large pantry, there is an abundance of storage space in the 12 lineal feet of base cabinet and 15 lineal feet of wall cabinet. There is an additional 12 lineal feet of both base and wall cabinet space provided in the workroom.

The plan does not show a basement, but one could be added easily, with an entrance from either the workroom or garage. If you prefer a central heating system, you could install it in the basement. A hot air system could be placed in the workroom or attic.

You can obtain blueprints for this FARM & RANCH Plan No. 5028 and a handy list of materials by which you can figure your construction cost accurately. Send \$1 to Building Editor, FARM & RANCH—Southern Agriculturist, Dept. E-89, Nashville, Tenn. Order by number—Plan No. 5028. Blueprints are adequate for any farm carpenter or for any farmer handy with tools.

RED CARD SALES

able to raise in excess of allotments and market under penalty regulations.

Excess Only Penalized

While their entire output is ineligible for price support loans, the penalty is paid on excess only. Several organizations want the penalty to apply to the entire crop. In addition, continued excess production has enabled a grower to "raise his base," and he has been entitled to write off part of the penalty paid as an income tax deduction.

The amendment on "unreported" acreage would catch the "hidden" patches of tobacco a grower conceals amid other crops or in isolated farmland or woodland plots and markets with his allotted output without declaring it "red card."

Other recommendations made by various groups include combining acreage controls with poundage regulations, eliminating the 7-acre exemption provision, reducing the acreage for new allotments and adjustments from 5 of 1 percent to 1 of 1 percent, destruction of excess in the fields, regulating the number of plants per acre to insure "marketing the entire stalk, and enforcing strict measurement."

Coupled with the move to curb production is the plea of the industry for farmers to produce better quality leaf. Farmers have tried to compensate for reduced allotments by intensive cultural practices. As a result, principally through heavy use of nitrogen, farmers have harvested a heavy burley to high nicotine content.

Cigarette manufacturers keep close tabs on the nicotine content of their smokes, and in recent years have been using less burley because of its increasingly higher nicotine qualities. Cigarette consumption also is down.

Homemakers Meet At Hazel Green 13th

On Thursday evening of last week the Hazel Green Homemakers club met with Mrs. Henry Stovall in her home. Thirteen members and two guests were present. Mrs. Sinclair, the new Home Demonstration agent of Morgan county and Mrs. Harold Rose, county president of Homemakers clubs.

Two new members, Mrs. Blair Childers and Miss Leona Hood, were taken into the club. The president, Mrs. David Morris, presided over the meeting. Miss Leona Hood gave an interesting devotional. Mrs. Sinclair talked on the preparation of yeast breads.

Mrs. M. C. Nickell had made rolls and Mrs. Morris made a dutch apple loaf bread which were baked in Mrs. Stovall's kitchen and eaten with the other refreshments. Molded salad, salted nuts and sanka were served with the delicacies made by the club.

The club is looking forward to attending the Homemakers meeting at Hazel Green in the future. Many interesting things to do were planned, among them copper ware, first aid, making of silver trays, candles.

The club feels fortunate in having Mrs. Sinclair as their new agent and is grateful to her for adding the Hazel Green club to her already full program. Mrs. Harold Rose invited all club members to attend the district meeting at Morehead April 30.
